Pembury Parish Council (PPC) has concerns that TWBC are recommending Option 2 in their A264 Pembury Road corridor junction capacity assessment, which excludes improvement to the Kippings Cross junction. There is concern that existing traffic hotspots, along the Pembury Road corridor, A228 and Kippings Cross, will not cope with the increased traffic from the large scale developments focused in this area without improvement to the Kippings Cross junction. PPC believes that the assumption drivers will naturally re-route from the Kippings Cross route to the A228 is flawed. The omission of mitigation works in the Kippings Cross area will also exacerbate the existing rat running on rural lanes in the area.

**8) If your representation is seeking a modification, do you consider it necessary to participate at the examination hearing session when it takes place? (please tick or cross as appropriate)**

No, I do not wish to participate at the examination hearing session
