The increase of 66 residential dwellings may mean there is limited network capacity to serve the development. Where Southern Water is consulted at Planning Application stage, then with the benefit of more information regarding this proposed development, we will be able to undertake further capacity checks and respond in more detail then. We request no changes as this may be managed through infrastructure delivery planning, but respond for completeness to make the RBTW aware of the possible impact of the change for this particular proposal.

**7) Please tick this box if you wish to be kept informed about the Inspector's Report and/ or adoption of the Local Plan.**
